Outdoor Maths Friday

On your walk today, I want you to conduct a survey. Using tally mark, you are going to identify which mode of transport is the most used. Look at the attached sheet on Seesaw in your activities.

We want to find out the most popular way to travel in Gorebridge.

Share your findings and pictures on Seesaw

Health and Wellbeing (PE) Friday

LI: I can keep fit through regular exercise.

What you will need today is: pairs of shoes.

Set up your shoes like a ladder in your garden or on the ground.

1. Put one put in each gap of the ladder (like a hop).
2. Then two feet in each gap of the ladder.
3. You can then do different variations of one foot and then two feet.

An adult at home can shout a number (1 or 2) as you move up the ladder. How many variations can you come up with?

Please share your exercise videos or pictures on Seesaw.
